

The ultimate maritime training, assessment and certification solution

Join the Education & Training Consortium today!

WHO ARE WE?

ETC is a network of leading maritime training institutes, in strategically selected locations worldwide, providing seafarers comprehensive classroom and online training solutions. The network is characterised by a uniform course structure, training methodology and certification, supported by Safebridge.

While offering the most advanced solutions in the industry, ETC network additionally includes innovative products in its portfolio, from Safebridge: SafeMetrix for e-assessments, SafeLearn for e-learning and myCert for e-certification.

SafeMetrix

SafeMetrix offers maritime-specific crew assessments, allowing to measure specific skill sets of seafarers. It provides actionable data for more accurate decisions when it comes to recruitment, retention, promotion and training.

ETC members have the opportunity to become licensed SafeMetrix Assessment Centres and to offer this service to shipping and crewing companies.

SafeLearn

SafeLearn platform offers maritime specific e-learning courses designed to address the needs of the crew, available online, anytime, anywhere.

ETC members are able to publish their own online courses on the platform, to promote SafeLearn courses through affiliate links and to resell the products available on SafeLearn.

myCert

myCert is a complete solution for companies which seek to modernise their certification systems. Management, issuance and validity checks – all on one secure central platform.

ETC members can use this service to manage, issue and authenticate their own certificates.

OUR OBJECTIVES

To offer complete and innovative training solutions to every member.

To assist members to become publishers and resellers of SafeLearn courses.

To help members become valued SafeMetrix assessment centres.

To improve members' efficiency through a secure platform for managing, issuing and authenticating certificates with myCert.
